documents and information in connection with a False Claims Act investigation concerning whether the Company's retail pharmacies improperly submitted certain insulin claims to Medicare Part D rather than Part B. The Company has been cooperating with the government and providing documents and information in response to the Civil Investigative Demand.

- *Cold Chain Logistics CID*. In September 2016, the Company received from the DOJ a Civil Investigative Demand in connection with an investigation as to whether the Company's handling of certain temperature-sensitive pharmaceuticals violates the federal Food, Drug and Cosmetic Act and the False Claims Act. The Company has been cooperating with the government and providing documents and information in response to the Civil Investigative Demand.
- *Amburgey et al. v. CaremarkPCS Health, L.L.C.* (U.S. District Court for the Central District of California). In March 2017, the Company was served with a complaint challenging the policies and procedures used by CVS Specialty pharmacies to ship temperature-sensitive medications. The case is similar to a matter already pending against the Company in the Superior Court of California (Los Angeles County), *Bertram v. Immunex Corp.*, et al., which was filed in October 2014. The Company is defending these lawsuits.
- *Barnett et al. v. Novo Nordisk Inc.*, et al. and *Boss, et al. v. CVS Health Corporation*, et al. (both pending in the U.S. District Court for the District of New Jersey). These putative class actions were filed against the Company and other PBMs and manufacturers of insulin in March 2017. Plaintiffs in both cases allege that the PBMs and manufacturers have engaged in a conspiracy whereby the PBMs sell access to their formularies by demanding the highest rebates, which in turn causes increased list prices for insulin. The primary claims are antitrust claims, claims under the Racketeer Influenced and Corrupt Organizations Act ("RICO"), violations of state unfair competition and consumer protection laws and in *Boss*, claims pursuant to the Employee Retirement Income Security Act ("ERISA"). The *Barnett* plaintiffs seek to represent a nationwide class of all persons who paid any portion of the purchase prices for a prescription for certain insulin products at a price calculated by reference to a benchmark. The *Boss* plaintiffs purport to represent multiple nationwide classes including a non-ERISA Employee/Exchange Plan class, an ERISA class, a Medicare class and an uninsured class. The Company continues to defend these lawsuits.
- *Insulin Products Investigation*. In April 2017, the Company separately received a Civil Investigative Demand from the Attorney General of Washington, seeking documents and information regarding pricing and rebates for insulin products in connection with a pending investigation into unfair and deceptive acts or practice regarding insulin pricing. We have been notified by the Office of the Attorney General of Washington that information provided in response to the Civil Investigative Demand will be shared with the Attorneys General of California, Florida and Minnesota. In July 2017, the Company received a Civil Investigative Demand from the Attorney General of Minnesota, seeking documents and information regarding pricing and rebates for insulin and epinephrine products in connection with a pending investigation into unfair and deceptive acts or practices regarding insulin and epinephrine pricing.
- *Bewley et al. v. CVS Health Corporation*, et al. and *Prescott, et al. v. CVS Health Corporation*, et al. (both pending in the U.S. District Court for the Western District of Washington). These putative class actions were filed in May 2017 against the Company and other pharmacy benefit managers and manufacturers of glucagon kits (*Bewley*) and diabetes test strips (*Prescott*). Both cases allege that, by contracting for rebates with the manufacturers of these diabetes products, the Company and other PBMs caused list prices for these products to increase, thereby harming certain consumers. The primary claims are made under federal antitrust laws, RICO, state unfair competition and consumer protection laws, and ERISA. The Company is defending these class action lawsuits.
- *Klein, et al. v. Prime Therapeutics*, et al. (U.S. District Court for the District of Minnesota). In June 2017, a putative class action complaint was filed against the Company and other pharmacy benefit managers on behalf of ERISA plan members who purchased and paid for EpiPen or EpiPen Jr. Plaintiffs allege that the pharmacy benefit managers are ERISA fiduciaries to plan members and have violated ERISA by allegedly causing higher inflated prices for EpiPen through the process of negotiating increased rebates from EpiPen manufacturer, Mylan. The Company is defending these class action lawsuits.
